

TECHNOLOGY AND ENGINEERING

High School to College and Career Pathways

TECHNOLOGY & ENGINEERING

Technology and Engineering Education is committed to preparing students for employment and/or continuing education opportunities by teaching them to understand, design, produce, use, and manage the human-made world in order to contribute and function in a technological society.

PRE-ENGINEERING (Utah Pre-Engineering Plan):

Workforce Trends

Due to the expansion of jobs in the technical fields and the increasing numbers of engineers who are retiring, the number of job openings in technology and engineering is increasing. There is a critical shortage of engineers and engineering technologists entering the field at a time when technology is reinventing itself every few years.

Get the Facts

In Utah, an engineer, professional or structural, must be licensed.

Beyond High School

There are a number of options for education and training beyond high school, depending on your career goals.

Sample Occupations

- > Civil Engineer
- > Civil Engineering Technician
- > Electrical Engineer
- > Mechanical Engineer
- > Mechanical Engineering Technician

For more information on salary projections, labor market demand, and training options, visit www.careers.utah.gov.
